

BACKBLAZE

B2 Cloud Storage

An amazingly affordable and proven cloud storage solution

\$0.005/GB a month for storage.

\$0.01/GB for downloads.

Store anything

- Upload and store an unlimited amount of data.
- Use lifecycle rules to keep only the versions you want.
- Pay just for what you use, get what you need on demand.

"WunderVu had been looking for a cloud solution for security and simplicity, and B2 hit every check box."

Aaron Rhodes, Executive Producer, WunderVu

Easily get data in and out

- Web, CLI, API: Upload/download data via our website, command line, or APIs.
- Verified partner integrations: CloudBerry, GoodSync, rclone, Synology, QNAP, and many more.
- Data by Mail: Use our Fireball to mail us data; get it back with Snapshots by Mail.
- Free transfers in and out between B2 and our compute partners.

Keep costs down

- The first 10 GB of monthly storage is free, the first 1 GB of downloads per day are free.
- Straight-forward: Single tier pricing and no minimum storage requirements.
- Caps & Alerts: Set usage caps and get text/email alerts when you approach them.

Experienced and trusted

- Secure: 2FA, HTTPS, and data centers are SSAE-16 / SOC-2 complaint.
- Experience: Backblaze currently manages over 750 petabytes of customer storage.
- Over 12 years experience in cloud storage with customers in over 150 countries.

No gotchas

- No access delay: All data is online and available.
- No minimum storage duration fees.
- No minimum file size.
